Why iEDU ERP

Multischool Solution

iEduERP Multischools Solution is best suited for a management of Group of Institutions who want to control more than one school or college from single app. All the different iEduERP installations communicate to the centralized app and the updates from the entire group can be viewed from super-admin dashboard.

Multiple Languages Support

iEduERP is available in different languages including English, Gujarati, Hindi, Marathi, Arabic and many more.

Alerts

Sends SMS and automatic alerts to parents on their mobile phones.

Guardian details instantly available

Complete details of guardians and parents are instantly available night and day in case of emergency may be brought in beginning instead of in the end.

Attendance by subject

This optional module enables the teacher of a subject to record student attendance of a specific class.

Analyze student performance

iEduERP allows you to store information about the past history of your students to let you analyze performance.

User friendly Interface

iEduERP is created with users in mind. Anyone with basic knowledge of computers and email can start using iEduERP within ten minutes of their first login.

Hosted on Cloud Servers

iEduERP is a web application. So there is no need of for any extra hardware or technical maintenance staff. All you need is a computer with an internet connection

Wide range of features

iEduERP has more features than any other student information system. You can add more features using the wide range of plugins that are available.

Mobile versions

Use iEduERP on the go from any location using the mobile web app. It supports all smartphones and works from the browser. Nothing to install or upgrade.

Evaluation method support

iEduERP supports CWA, CCE and GPA: iEduERP includes CWA and GPA methods for evaluation according to international standards. Also includes CCE evaluation method as per CBSE, India guidelines.

Smart attendance

iEduERP allows integration of the attendance module with systems such as biometric devices and swipe cards, amongst others.

Messaging System

Inbuilt internal messaging system to connect with students, employees and teachers

Graphical comparison of student reports

iEduERP provides you with the option to get a graphical presentation of a student's performance for a thorough comparison with the class average.

Optimized for customization

All schools and colleges use different systems and processes. iEduERP is engineered to be customization friendly to ensure it meets your requirements.

Secure and Reliable

You can trust iEduERP to store your data. iEduERP satisfies all modern web security standards.

Plugin friendly

iEduERP is plugin friendly and allows you to activate or deactivate various plugins to suit your needs. You can also develop your own plugins as per your requirement.
